

## Virtual Economics - Activity

### Overview:

Think about what you currently teach and how the resources on Virtual Economics could be used to enhance your classes. Identify a topic or unit that you currently teach or plan to teach that you would like to enhance. Find the items listed below using Virtual Economics. Organize and save the lessons on the flash drive so you'll be able to find them and use them when you return to your classroom. Be prepared to share one item with the group that might be useful to others.

### Directions:

1. What topic or unit are you planning to teach? Explain why you've selected this topic/unit.
2. **Teaching Tip**  
Find 1 Teaching Tip that will be helpful to you or your students for your topic. (Just list the concept and tip # from Virtual Economics)
3. **Concept Videos**  
Find 2 Concept Videos that you will use. Write down the concepts and explain how you plan to use the videos.
4. **Lessons**  
Find 4-5 lessons (print or online) that you will use. Save these lessons to your flash drive and organize them in a way that makes sense to you.

### Share:

Share one item from your search that you learned or that you think would help other teachers as they work with Virtual Economics.
