

Virtual Economics – Search Tips

1. Start broad

example: all grade levels and then narrow your search

2. Start with short phrases

example: “supply” instead of “supply and demand”

3. Search by discipline/subject

example: “math” or “history” or “personal finance”

4. Only display online lessons

example: “online:” or “econedlink”

5. Search for lessons by publication title or lesson title

example: “fitness” or “grasshopper”

6. Use the Browse Economics Concepts section

7. Access all lessons from the [View-All-Publications.html](#) file
